

**Message of Solidarity
for the 15th Congress of Komala Party of Iranian Kurdistan
May 11th 2017**

Dear comrades,

The Red Party Norway conveys our warmest message of solidarity to the 15th Congress of Komala Party of Iranian Kurdistan.

The Middle East passes through a critical situation, with wars, interventions and extensive encroachments and suppressions from the state authorities. It is imperative that all progressive forces are united in their struggle for the interests of the peoples and for a just, peaceful ending of the wars.

The Komala Party of Iranian Kurdistan has a special responsibility through their consequent struggle for democratisation of social and political life, based on the interests of the workers, women and suppressed masses, and a federative system that guarantees self-determination of all nationalities, including the Kurds.

We know that the Komala Party of Iranian Kurdistan are true to their international obligations, through your contributions to the common struggle against the fundamentalist, religious forces like Daesh, also outside Iran. The secular and democratic line of the Komala Party of Iranian Kurdistan will serve the progressive forces all over the region.

The Red Party Norway are wishing the 15th Congress, all participants and the new Board to be elected by the congress, a successful gathering and all the best in your further struggle.

Long live international solidarity!

The Red Party, Norway

Marianne Gulli,
responsible for International affairs
